## Year 3 Amazons Science Topic

12 December 2019

Dear Amazons Parents/Guardians

Next week, to end our Science based topic 'Light and Dark', we will be looking at reflection and different materials which reflect light.

Please could we request the children bring in any objects from home which are reflective, i.e. those that are shiny, by **Tuesday 17<sup>th</sup> December**. This could be anything such as CD's, trophies or baubles.

**In addition to this**, next week we will also be creating Christmas decorations using reflective materials. If you have any reflective materials which your child would like to repurpose to create their Christmas decoration, please also send this into school with the children by **Tuesday 17<sup>th</sup> December**, e.g. tinsel, sparkly stickers or shiny wrapping paper.

If you have any questions about this, please do not hesitate to ask.

Thank you for your continued support.

Miss Wilks
