Dear Parent/Guardian

The School Health Team will be visiting your child's class to deliver a session about hand washing.

There will be a number of activities for your child to take part in, one of which involves the use of an ultra violet light box. It is designed to show the child how parts of their hands can be missed when washed.

A small amount of lotion is placed on the child's hands before they place their hands under the ultra violet light.

If your child has any known allergies which could be triggered by the use of lotion please let your child's class teacher know and we will ensure that your child will not take part in this activity.

Yours sincerely

0 – 19 Health Visiting and School Health Team
